Success Stories in Affordable Multifamily Housing

Allison Taisey
The Northeastern IPM Center
Cornell University

HUD-USDA interagency agreement: IPM Training in Public Housing

- Network of researchers, public health specialists, and housing professionals
- Trainers and curricula for IPM in Multifamily Housing
- · Website and blog

The process

PHA contacts the Northeastern IPM Center

We would be VERY interested in an IPM presentation.

Our pest control costs have tripled in the last three years and we would welcome your resources and support.

Our costliest pests are bedbugs but certainly not our only one. Please include our housing authority.

Center coaches the PHA through IPM implementation at a pilot site

PHA sets up for success

Hires a qualified pest management firm or get staff licensed

- · Picks a pilot site
- Develops a system for paperwork
- Trains the IPM team

IPM in Multifamily Housing Training

Identifies focus areas

- Monitors and inspect
- Identifies focus areas
- Looks through service records and work orders for trends

A property manager inspecting building exteriors for holes

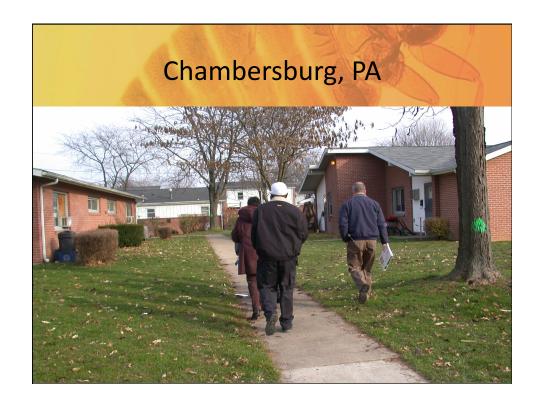

Solves problems

- Allocates time and resources to focus areas
- Uses renovation and move-in as an opportunity
- Tracks data from work orders and PMP service reports to identify trends and track efficacy

Monitor under a well-sealed sink

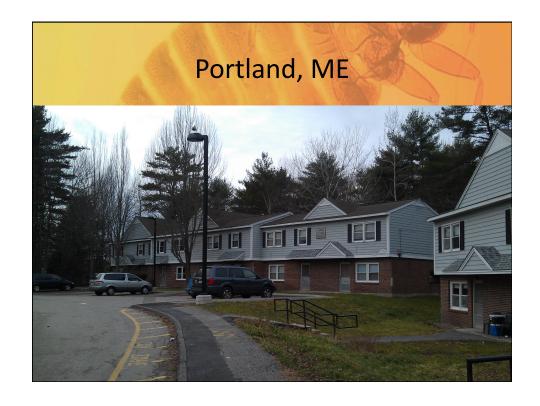

Jon Wild receiving the Rachel Carson Award from the Northwest Center for Alternatives to Pesticides

Common themes

- Media or financial pressure related to bed bugs sparks interest in an IPM program
- Want to know how to spend money
- Momentum builds after a property-wide inspection with monitoring
- Syncing documentation increases communication and accountability
- Resources are allocated to actions that have measurable impact

How you can help

- Share picture-based resources, research results, and advice—stoppests@cornell.edu
- Call the executive director at your local housing authority
- Conduct after school programs for kids
- Train in-house crews and health workers
- Look for the most efficient and effective way to spend time and money

HUD's notices

- IPM: PIH 2011-22
- Bed bugs: H 2012-5 and PIH 2012-17 with Related Attachment

"PHAs may offer protective tools to residents ... detection or protection devices PHAs may voluntarily offer to inspect tenants furniture before move-in. PHAs may also offer tenants a service of non-chemical treatment of household items upon tenant move in, non-chemical treatment or inspection of used furniture and/or non-chemical treatment of luggage before it is unpacked when a tenant returns from a trip. Tenants may voluntarily use such services, but PHAs may not require tenants to do so. These services or products are to be offered at the PHAs expense"
