## Environmental Justice

[http://en.wikipedia.org/wiki/Environmental\\_justice](http://en.wikipedia.org/wiki/Environmental_justice)

- Environment: Where we live, work, play, pray, and learn.
- Seeks to redress inequitable distributions of environmental burdens (quality pest management, university expertise, healthy homes).
- The fair treatment and meaningful involvement of all people regardless of race, color, sex, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies." –EPA

## The Bugs That Won't Go Away Your role in delusional infestation

The webinar will begin promptly at 11am EDT (GMT -04:00).  
Please make sure your computer speakers are on.  
There is no call in number.

*Cultural sensitivity and respect set the tone for successful IPM implementation at [www.stoppests.org/success-stories/case-studies/](http://www.stoppests.org/success-stories/case-studies/)*

### A word from the IPM Coordinator

- “Be creative about reaching your residents; get to know them.
- **Any treatment options must be specific to the level of infestation as well as the tenants’ lifestyle, including cultural practices and daily routines.**
- Do your best to collaborate with the residents’ community support providers.
- **If there are language barriers, bring in interpreters or try using pictures to illustrate IPM.**
- Work as a team, and empower your residents to take pride in their homes.
- **Remember to be patient. These insects are not going to go away over night.”**

### Call to Action

1. Identify the obstacles to your work that you don't feel qualified to tackle
2. Find experts in these topics
3. Develop a MOU and partner with them
4. Apply for funding from new, diverse sources
